AVIAN INFLUENZA - CODE OF PRACTICE FOR RACING PIGEONS

The importance of good genetics in racing pigeons cannot be understated. The foundation stock of South Africa's renowned pigeon racing loft, Kitchenbrand's Loft, is a case in point. Co-owned by Mark Kitchenbrand, the Kitchenbrand's Loft's Ace Pigeons are bred for performance and speed, and the loft's incredible gene pool is sourced from the best genetic stock worldwide.

How to be successful at pigeon racing - Farmer's Weekly

Feeding performance pigeons to competitive success follows exactly the same principles as those used for the racing pigeon as the best performances are achieved from the most fit and healthy "kit". Flying and performing ability of the performance breeds is determined mostly by the breeding background of the birds.

Performance Pigeons | birdhealth

Pigeon racing is the sport of releasing specially trained homing pigeons, which then return to their homes over a carefully measured distance. The time it takes the animal to cover the specified distance is measured and the bird's rate of travel is

Racing Pigeons -Training - Racing Pigeons - welcome to www ...

The main focus of attention has been the racing pigeon industry due to the fact that it involves the transportation of pigeons across international borders. Clearly, if pigeons are released in EU countries where avian influenza is active, when they return to lofts in the UK there is clear potential for those birds to carry and transmit the disease to other domesticated birds, wild birds and animals and indeed humans.

Pigeons and Avian Influenza (Bird Flu) - PCRC

The testing might take place during training or young bird racing. You have to ask yourself if getting 1 decent pigeon out of 4 is really that positive an outcome for the 'test pair', especially if the cock bird you're breeding from has great breeding himself with results in his own right and a clear family history of successful ancestors.

Breeding Techniques - Racing Pigeon Sport

Fanciers have, over the years, developed different methods of racing pigeons, each having as its main objective the improved performance of their pigeons. At one time the natural system of racing, where the pigeons are mated and then flown whilst they are breeding or feeding youngsters, was the only system known.
