I have the 5' lift and my new cable is 12'. The cable currently on the lift is 3/16ths but I think you guessed right in that the cable is just too long and getting crushed. I'll be changing it out later this week. We had a new Dock built last year and the dock builder put the cable onhe must have just used the 16' cable without checking if that was the right size.

Featured used jet ski lift From Recognized Brands ...

B. Your LSP PWC Lift will only protect your personal watercraft if the craft is lifted well above the level of the water. In larger lakes or during storms, large waves may lift the craft from the lift or tip the lift over, causing damage both to the craft and the lift. You must take precautions to protect your craft and lift from these conditions.
